SPRING MATH WORKSHOP

GRADE 2
through
GRADE 5

Improving Number Sense and Mathematical Fluency in Struggling Learners

Students struggling with math in grades 2-5 are often grappling with two concepts: number sense and fact fluency. In this hands-on workshop, teachers and specialists will learn how to integrate strategies throughout their day to improve these two skills in their struggling learners and begin building a solid foundation that will allow them to comprehend basic concepts in grade-level work. Many strategies can be applied right away with little prep. Attendees will come away with resources for home-school connections as well as current apps and links to increase student achievement.

TUESDAY
MAY 16
2017

NEWPORT, OR

Hallmark Resort Newport
744 SW Elizabeth St., Newport, OR

8:00

ABOUT THE TRAINERS

Jen Hunt

Jen is an elementary specialist who has built her consulting portfolio from over a decade of experience teaching elementary school and leading teacher teams, with a focus on active math instruction and student-centered, developmentally-appropriate strategies in the classroom.

Laura Nelson

Laura is a veteran elementary teacher whose consulting work with over 60 schools in Oregon and Washington has helped teachers bring excitement and active learning strategies back into the math classroom, with a clear focus on standards and engaging, thoughtful math practices.
