

## Purposeful Planning for the Math Classroom

GRADE 6  
through  
HIGH SCHOOL

In this workshop, Shannon McCaw will guide teachers through the process of creating student-centered unit and lesson plans using effective math teaching practices as described by NCTM. Participants will design purposeful questions to pose to students and discuss ways to elicit and use evidence of student thinking in their classrooms. They will also learn strategies for implementing tasks that promote reasoning and problem-solving, as well as ways to support productive struggle in learning mathematics. Teachers may choose to bring a unit of their choice in which they would like to increase student engagement and meaningful mathematical discourse.

### DECEMBER 14, 2017

*Workshop is  
8:30 - 3:00*

*with a one-hour lunch break*

*Registration and continental  
breakfast begins at  
8:00*

***San Dieguito High School Academy Learning Commons***

*800 Santa Fe Drive  
Encinitas, CA 92024*

***COST: \$249 per person***

*Group Rate: \$199 per person (if 4 or more from the same school or district register).*

### About the Trainer: Shannon McCaw

*Shannon McCaw has been training teachers from more than 150 districts over the past 12 years. Previously a high school math teacher, Shannon's passion is helping teachers engage students in a rigorous mathematics classroom. Her extensive knowledge of the K-12 Common Core State Standards, the Smarter Balanced Assessment and best practices in the classroom gives her the tools to work with teacher teams at all levels. Shannon's workshops engage math teachers in the learning process while also equipping them with strategies that can be quickly implemented in the classroom.*
